2. ENVIRONMENTAL POLICY STATEMENT

EASL Limited recognises that it has an environmental responsibility and accordingly places a high priority on the management of its affairs. EASL Environmental Policy sets out its commitment to ensuring that sound environmental standards are integrated into all operations and that environmental standards are applied uniformly across the company.

MANAGEMENT

- The Directors have ultimate responsibility for environmental affairs within EASL ensuring the policy principles are implemented and progress monitored on a continual basis.
- The Directors will periodically review this policy to ensure that it reflects the latest developments in technology, legislation and the needs and expectations of society.
- The Directors of EASL are responsible for the development and endorsement of an Environmental Policy Statement for its business.
- The management will implement the environmental policy and will contribute to its successfulness.
- The Environmental Policy Statement will incorporate the Principles outlined in the policy
- The Directors are committed to the prevention of pollution and promise to comply with Environmental laws & regulations.
- The Environmental policy will be communicated to all employee's and made available to the public
- The Directors promise to commit to continual improvement of the Environmental Management Systems.

Jamie Bayliss – Managing Director
